

**ABSTRACT**

The present application describes sulfonyl-amidino-containing and tetrahydropyrimidino-containing compounds and derivatives thereof of Formula I:

5

I

or pharmaceutically acceptable salt forms thereof, wherein M is a ring, P is an optional ring, and  $P_4$  and  $M_4$  are as defined below. Compounds of the present invention are useful as inhibitors of trypsin-like serine proteases, specifically factor Xa.
